Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The method claims 1-3 contain no active steps. Each of the method claims should recite a series of active step. Each active step should interrelate with the previous defined active step(s). Currently, claims 1-3 contain many functional statements and statements of desired results. There are no active steps recited in method claims 1-3. Claim 4, it is not clear the claimed "control means" in line 1 and the claimed "control means" in line 6 are same control means or different one. It is also not clear the claimed "the control means" in line 8 of claim 1 and line 2 of claim 5 are referred to "control means" in line 1 or "control means" in line 6. Claims 6 and 7 recites the limitation "the control valve" in last line. There is insufficient antecedent basis for this limitation in the claims. Regarding claim 7, the word "means" is preceded by the word(s) "programmable" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967). Also, it is not clear what the claimed programmable means is.
